## V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

### 1. Statement

Novelty (N)	Claims	1-3	YES
	Claims		NO
Inventive step (IS)	Claims	1-3	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-3	YES
	Claims		NO

### 2. Citations and explanations

The subject matters of claims 1-3 appear to involve an inventive step in view of the documents cited in the ISR.

Documents 1 and 2 do not describe "an air curtain forming apparatus for forming an annular air curtain of clean air that has passed through a filter shaped like a rectangular frame, in the space between the surrounding of a wafer carrying-in opening and the surrounding of a wafer-enclosing vessel." The invention of the present application with this constitution has an advantageous effect that "the air outside the enclosing vessel can be perfectly prevented from entering the enclosing vessel."
